

WHO WE ARE

Founded in 1999, with corporate headquarters in Jacksonville, Florida and a satellite office in California, The Doctors Center Health Services is a provider of mobile occupational health testing programs dedicated to preserving safe work environments and improving existing safety programs for our clients and their employees.

Our highly trained staff will come to your facility in one of our modern mobile units to train, test, and screen your employees, ensuring a convenient and comfortable way for your company to maintain a healthy and positive work environment without interrupting productivity.

At the same time, our highly experienced physicians and administrators will make sure that all our services keep your company in proper compliance with the latest OSHA mandates and regulations.

Our services include:

- **AUDIOMETRIC TESTING**
- **RESPIRATOR FIT TESTING**
- **HEALTH AND WELLNESS SCREENING**
- **D.O.T. PHYSICALS AND ANNUAL MEDICAL MONITORING**
- **SUBSTANCE ABUSE TESTING**
- **IMMUNIZATIONS**

We provide a wide range of OSHA compliance testing and training programs at competitive prices. Call today—our dedicated staff is waiting to answer questions or provide additional information.

“All testing and exams are done professionally and the administrative requirements are handled in a timely manner. I highly recommend The Doctors Center Health Services for any company.”

*Jeff,
Human Resource
and Safety Director*

Safety Manager*

MEDICAL SCREENING

THE DOCTORS CENTER HEALTH SERVICES provides companies with a preventative healthcare and worksite wellness management system that helps target incentive and intervention programs while reducing implementation costs, maximizing participation, increasing employee wellness and decreasing healthcare costs.

Medical screening is a method for detecting disease or body dysfunction before an individual would normally seek medical care. Screening tests are usually administered to individuals without current symptoms but who may be at high risk for certain adverse health outcomes. The fundamental purpose of screening is early diagnosis and treatment of the individual and thus has a clinical focus.

SERVICES AVAILABLE:

- Blood tests:
 - Blood Chemistry/Lipid Profile*
 - Complete Blood Count (CBC)*
 - Prostate Specific Antigen-Blood (PSA)*
 - Ovarian Cancer Marker (CA-125)*
 - C-Reactive Protein (HsCRP)*
 - Thyroid Panel with TSH*
 - VAP Cholesterol Tests*
- Cardiovascular Health Screens
 - Echocardiogram*
 - Electrocardiogram (EKG)*
 - Arterial Stiffness Index (ASI)*
 - Ankle Brachial Index (ABI)*
- Abdominal Aortic Aneurysm Ultrasound
- Body Mass Index (BMI)
- Body Composition
- Osteoporosis Detection
 - Bone Mineral Density (BMD) Test*
- Early Stroke Detection
 - Carotid Artery Ultrasound*
- Blood Pressure
- Immunizations
 - Flu Shots*
 - Hepatitis A & B*
 - Tetanus*
 - Pneumonia*
- Thyroid Ultrasound
- Vision Screening

- According to a recent study, for every dollar a company invests in wellness programs, it saves an average of \$3.14 (in health insurance, sick leave, etc.).

MEDICAL SURVEILLANCE

The fundamental purpose of surveillance is to detect and eliminate the underlying causes such as hazards or exposure of any discovered trends and thus has a prevention focus. The Doctors Center Health Services is happy to provide customized surveillance programs tailored to your company's needs.

SERVICES AVAILABLE:

- Blood tests:
 - Lead tests with ZPP*
 - Heavy Metals*
- Blood Borne Pathogens
- HAZMAT Exam
- HAZWOPER Exam
- Baseline Medical Exams
- Annual Medical Exams
- Periodic Evaluations
- Customized Physicals
- X-Ray with B-Mode Reading

- *Each year, millions of the estimated 140 million U.S. workers are injured on the job or become ill from exposure to hazards at work.*

"The Doctors Center Health Services helped me maintain compliance by customizing my company's program. The physicians on staff are knowledgeable and accessible."

*-Robert
Risk Management*

DISEASE RISK ASSESSMENT

The Know Your Number® Disease Risk Assessment

- Assesses an individual's risk of developing chronic disease
- Acts as an "early warning system" to alert individuals and their doctors of potential health problems.
 - Coronary Heart Disease (CHD)
 - Congestive Heart Failure (CHF)
 - Type II diabetes
 - Colorectal cancer
 - Prostate cancer
 - Breast cancer
 - Lung cancer
 - Chronic Obstructive Pulmonary Disorder (COPD)
 - Stroke
- KYN® also provides a goal for the individual to aim for. It helps to promote the doctor/patient partnership to facilitate healthy behavior changes to lower disease risk.

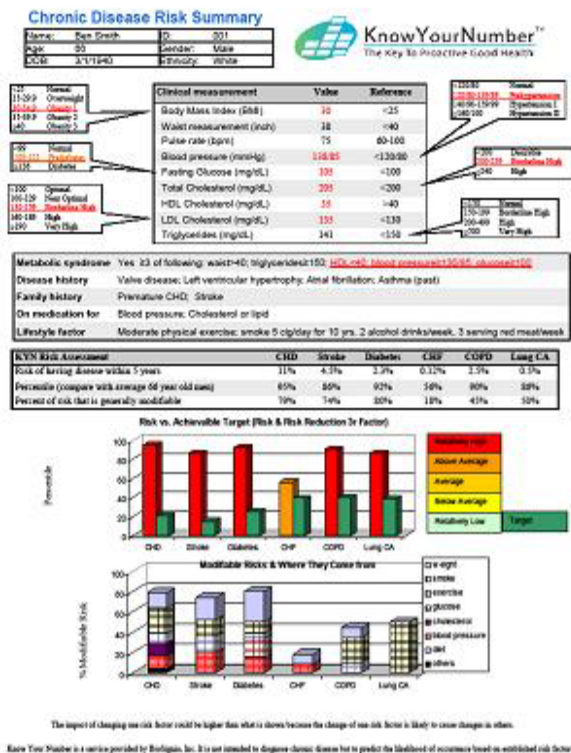

Reporting

Individual Reports

Employees receive a confidential assessment based on their individual results. Secure, on-line access is available so employees can modify risk factors as changes in lifestyles are made.

Aggregate Reports

Results from the individualized disease risk profiles are summarized in the form of confidential (no personalized data) aggregate reports that forecast the population's risk of onset for each chronic disease. Aggregate data can then be stratified into risk groups, so that targeted prevention strategies can be planned, budgeted and implemented.

SUBSTANCE ABUSE TESTING

THE DOCTORS CENTER HEALTH SERVICES will manage your company's substance abuse program including designing a program that best fits your company's needs. Our services include mobile testing, national program administration, setting up and maintaining collection sites, testing, reporting and record keeping.

MOBILE TESTING

- Laboratory tests
- Rapid drug screens
- Blood and breath alcohol tests
- Mobile units in compliance with drug screen collection guidelines
- Separate waiting and collection areas
- DOT compliant

MEDICAL REVIEW OFFICER SERVICES

- Our MROs have over 15 years of experience in toxicology and substance abuse
- Our MROs are certified by The American Association of Medical Review Officers
- Routine 24-hour turn around on negative test results
- MRO's available via phone and email

COLLECTION SITE MANAGEMENT

- We will service your company nationally, utilizing over 6,500 collection sites
- We will identify the most convenient collection site(s) according to your locations and requirements

RANDOM SELECTION

- Our random selection program is designed to meet the expectations of the DOT and to comply with EEOC and ADA regulations.
- Employees can be selected by region, location or corporate wide and different percentages set up for different employee groups.

RESULTS

- 24-hour reporting on negative results
- Web-based reporting
- Email notification on all results
- Confirmation telephone calls on all positive results

"...As our MRO, they are always very thorough, comprehensive and accurate in the paperwork that is provided to us. The decision to partner with DCHS is the best we could make.

Senior Manager,
Safety*

CONSULTING & TRAINING PROGRAMS

Our team of physicians and staff join with your operational team to develop client specific, cost-based solutions for your needs. Our advice is tailored to your organization's specific needs and is generally the most cost-effective approach.

We can provide expertise in the following areas:

- Design and implementation of a sound corporate occupational health program
- Medical Evaluations
- Workers compensation case management
- Americans with Disabilities Act (ADA) compliance
- Department of Transportation (DOT) compliance
- Training
- Preventative/wellness programs
- OSHA guidelines and compliance
- Development of policies and procedures

ON SITE TRAINING

- Hearing Protection Training
- Respiratory Protection Training

All courses are video based and are directed and facilitated by thoroughly trained instructors. Pamphlets, question and answer sessions and quizzes are included in each training program.

CPR/FIRST AID COURSES

- Adult AHA Heart saver CPR/AED
- Infant/Child AHA Heart Saver Pediatric CPR
- AHA Basic Life Support for the Healthcare Provider
- AHA BLS for HCP Renewal Online Renewal Course
- AHA BLS for CPR Renewal Course
- AHA Heart Saver First Aid for all ages

- *OSHA has certain requirements regarding first aid and CPR preparedness in the workplace. Some OSHA compliance standards require specific types of industry to provide first aid and CPR training to employees.*

With the e-WEbDr® program, employers can manage their comprehensive occupational health programs entirely over the internet. Features include the ability to view test results, view injury treatment records, generate customized reports, create users with access limited by function, receive random selection and more.

FEATURES

- Web-based application—Real time access to employee information. The search screen allows for multiple ways of quickly accessing an employee's records. Results can be sorted using a number of different criteria, which allows you to find results quickly and efficiently.
- Multi-user access based on functionality—Multiple security levels ensuring system integrity. Login Screen allows the client users access to the system with a username and encrypted password. User authentication allows us to monitor and report on usage allowing for stronger security.
- Email notification—The reports can be emailed to an individual of your choice by simply clicking a button.
- Customizable reports—All reports provide a wide range of user selected parameters allowing standard reports to be virtually customized, based on your selection.

BENEFITS

- Improve communication between departments
- Reduce paper and printing expenses
- Reduce administrative responsibilities
- Improve overall bottom line

“Having access to my reports over the internet has really cut down on the time I’ve needed to spend on the phone. My manager loves the way I can customize the reports too.”
